

## FORUM DENTAL GROUP

Michael LaMarche, DDS

Diplomate of the American Board of Forensic Dentistry

Dear Patients,

August 2022

When I began the Forum Dental Group in 2010, I had no idea that I would be blessed with so many wonderful and committed patients who would give me such a sense of family. I am honored by your loyalty and hugely impressed by your willingness to accept responsibility for your own dental health through your participation as a collaborator.

You have challenged and educated me, provided me with 12 years of your faithful visits, brought me your children and grandchildren, and shared your lives, tough times, and good humor with me. It is for these reasons that I love the practice of dentistry and having served you all these years. It is now time after 46 years of practice, to move into the next chapter of my life, spending more time with my lovely wife Lena, son and daughter.

There have been several dentists that have expressed a desire to take over your care and selecting the right one was no easy task. This person would have to share my commitment to honor the human body by using no dental materials that are even remotely controversial. This professional who would share my determination to involve patients as equal partners as in their own health care and who would likewise respect the contribution of the staff members who support them.

Finally, I found Dr, Meng-Hsiu "Matthew" Ho. Who in turn, had examined several other dental offices in his search for the right practice. Dr. Ho shares my belief that each patient is like no other. He agrees that the concerns they have regarding their health and treatment is approached in a way that acknowledges not only to their unique physical needs, but to their emotional requirements as well. Dr. Ho will take over your care from September 1, 2022. I will be reviewing all your charts and specific needs with him to identify your individual needs. I will also be available for consultation, should you feel a need.

It is my heartfelt wish that you will trust Dr. Ho with your dental healthcare just as you have trusted me. The decision to leave my practice has been a difficult one for me but made easier by the confidence in knowing your care is in Dr. Ho's capable and experienced hands. My family members and I will become Dr. Ho's patients and I look forward to seeing you in the reception area as a fellow patient, rather than from behind the mask as your dentist.

Please accept my deepest appreciation for your many years of loyalty and friendship. I will always treasure them both. I wish you good health and much happiness.

Gratefully yours,

*Michael LaMarche, D.D.S.*
